What is ICIS search?

- A tool for generating brand awareness among prospective buyers of your products
- A tool for generating sales leads by driving traffic to your website
- Attracts buyers of chemicals both directly and via the major search engines
- Allows buyers to find you via searches by product/service, CAS number or company name

Banner adverts

- Attract the attention of the buyer while they are searching
- Maximize visibility over your competitors
- Saturate your message to enhance your listings
- Highly targeted: your banner is only displayed when your products are searched for
- No wastage: you only pay when your advert is displayed
