

# 2011 Features List

| ISSUE DATE   | COPY DEADLINE | TECHNOLOGY REPORTS                                   | MARKET REPORTS                           | PRODUCT FOCUS           |
|--------------|---------------|--|--|-------------------------|
| January 19   | 12 January    | Elektra Awards Issue                                 |  | Power ICs               |
| January 26   | 19 January    | Display & Controller Technologies                    | Southern Electronics Special Report      | Connectors              |
| February 2   | 26 January    | Analogue RF and Mixed Signal                         | Power Systems                            | Displays                |
| February 9   | 2 February    | Test & Measurement                                   | Mobile World Congress Special Report     | Microcontrollers        |
| February 16  | 9 February    | Design Software, EDA & IP                            | Automotive Electronics                   | LEDs                    |
| February 23  | 16 February   | Programmable Logic, SoCs & Processors                | Embedded World Special Report            | Analogue & mixed signal |
| March 2      | 23 February   | Power Systems & Devices                              | M2M Wireless Systems                     | Test systems            |
| March 9      | 2 March       | Embedded Systems & Development Tools                 | Renewable Energy Systems                 | FPGA                    |
| March 16     | 9 March       | Displays   | Military/Aerospace                       | Embedded design tools   |
| March 23     | 16 March      | Microcontrollers & Microprocessors                   | Supply Chain                             | Enclosures & cases      |
| April 6      | 30 March      | Embedded Systems and Single Board Computers          | LED Lighting + National Electronics Week | Connectors              |
| April 13     | 6 April       | Programmable Logic, SoCs and Processors              | Motor Control                            | Discretes               |
| April 20     | 13 April      | Displays & controller technologies                   | Embedded Systems                         | Microcontrollers        |
| April 27     | 20 April      | Test & Measurement                                   | Communications Systems                   | LED drivers             |
| May 4        | 27 April      | Passives and Sensors                                 | PCIM Special Report                      | Power supplies          |
| May 11       | 4 May         | Analogue RF and Mixed Signal                         | Medical Electronics                      | Test Systems            |
| May 18       | 11 May        | LEDs & Opto-devices                                  | Industrial Systems                       | Sensors                 |
| May 25       | 18 May        | Connectors & Enclosures                              | Power Systems                            | Analogue & mixed signal |
| June 1       | 25 May        | Design Software, EDA & IP (DAC Preview)              | EuroLED Special Report                   | Microcontrollers        |
| June 8       | 1 June        | Programmable Logic Soc & Processors                  | Security Systems                         | Passives                |
| June 15      | 8 June        | Embedded Systems and Single Board Computers          | Automotive                               | Displays                |
| June 22      | 15 June       | Microcontrollers & Embedded Design                   | Supply Chain                             | RF & Microwave          |
| July 6       | 29 June       | Analogue, RF and Mixed Signal                        | Wireless Systems                         | Connectors              |
| July 20      | 13 July       | Power Supplies and Converter Modules                 | Contract Manufacturing                   | Enclosures & cases      |
| August 3     | 27 July       | Embedded Wireless Systems                            | Renewable Energy Systems                 | ADCs & DACs             |
| August 17    | 10 August     | LEDs & Opto-devices                                  | M2M Wireless Systems                     | Power Supplies          |
| September 7  | 31 August     | Reference Designs & Dev Kits                         | DSEi Special Report                      | SBCs                    |
| September 14 | 7 September   | Displays   | Motor Control                            | Discretes               |
| September 21 | 14 September  | Design Software, EDA & IP                            | LED Lighting                             | Test                    |
| September 28 | 21 September  | Programmable Logic, SoCs & Processors                | Supply Chain                             | Sensors                 |
| October 5    | 28 September  | Test & Measurement                                   | UK Design                                | Analogue & mixed signal |
| October 12   | 5 October     | Microcontrollers                                     | Embedded Live Special Report             | Switches                |
| October 19   | 12 October    | Analogue RF and Mixed Signal                         | Industrial Wireless Systems              | Data converters         |
| October 26   | 19 October    | Passives, MEMS & Sensors                             | Communications Systems                   | Test systems            |
| November 2   | 26 October    | Power Semiconductors, Supplies and Converter Modules | RF & Microwave                           | Displays                |
| November 9   | 2 November    | Connectors & Enclosures                              | Medical Electronics                      | LED drivers             |
| November 16  | 9 November    | Displays   | Renewable Energy Systems                 | ADCs & DACs             |
| November 23  | 16 November   | Programmable Logic Soc & Processors                  | LED Lighting                             | Power ICs               |
| December 7   | 30 November   | Elektra Awards Issue                                 |  | Passives                |
| December 14  | 7 December    | The Market in 2012                                   |  | Microcontrollers        |
