

# **CORONAVIRUS (COVID-19)**

# OFFICE RETURN PLAN PHASED OPENING GUIDANCE

#### Introduction

We are fully appreciative of the Government's lockdown position and potential for easing over the coming days/weeks. Clearly though we must ensure that we can adhere to the Government's guidelines and adopt a social distancing procedure into our operation.

We also appreciate that there are areas within the UK where the impact of Covid-19 is lower than elsewhere and we are taking this into consideration when opening our office.

We will assess the impact within the local area BEFORE granting the following to begin. This assessment will include:-

- Total number of cases recorded prior to re-opening
- Total number of reported deaths prior to re-opening
- These will then be assessed against the UK statistics.
- Only when we are satisfied, we will then move as follows:-
- Office Preparation
- We will ensure that the office has a deep-clean prior to opening.

There will be a good supply of the following provided:-

- Hand gel sanitiser
- Antibacterial wipes
- Tissues

Face masks – are not deemed to be necessary for office workers as long as social distancing can be adequately maintained.

### **New Office Procedures To Be Adopted**

- 1. Only one employee to use the kitchen at any one time.
- 2. Employee to wipe down kitchen area after use.
- 3. Employees to sit 2m apart.
- 4. Daily deep cleaning of office completed by external cleaning contractors.

### **Planned Phasing**

Until the Government's lockdown is completely over, the following phases will be implemented:-

- <u>PHASE 1</u> **Week One** office will be open for Senior Employee / Managers only.
- <u>PHASE 2</u> **Week Two** will see the managers and 50% of their team (adopting a 2m safe distance policy from their nearest colleagues).
- <u>PHASE 3</u> Week Three will see those employees who worked in week two work from home and the remaining 50% of the team will be given their chance to come to the office and get used to the new procedures.

Depending on the success of the above, we will repeat <u>PHASE'S 2 & 3</u> on a weekly basis until we can work together at the same time.

During the above steps, senior management will complete regular documented reviews, with findings communicated to all employees as required.

IF AT ANY TIME THAT THESE PROCEDURES DO NOT WORK OR ARE NOT BEING ADHERED TO, THIS POSITION WILL BE REVIEWED IMMEDIATELY.

## **Employees Responsibilities**

- 1. To provide a signed disclaimer saying that they are fit to return to the office and do NOT have any Covid-19 symptoms.
- 2. To not car share their travel to work with any other member of employee (unless living with said member of employee)
- 3. To follow any Government guidance on the use public transport
- 4. To use the office car park (if applicable)
- 5. To comply with updated instruction contained with these procedures and accompanying Risk Assessment and method Statement (RAMS).

### **Our Commitment to Employee**

We take the safety of our employees as a priority. As such, we will commit to the following:-

- 1. Ensure that the office receives a deep clean prior to it re-opening.
- 2. Ensure that the office is cleaned regularly and that all hard surfaces are cleaned using an appropriate level of anti-bacterial cleansing.
- 3. We will monitor these procedures closely and review immediately if they are not working.
- 4. Review our office opening times and consider staggered openings.

#### **Benefits of a Phased Return**

The benefits of a phased return are as follows:-

- To provide enhanced service to our clients/customers.
- Limiting employee density levels will allow for suitable social distancing to be achieved throughout office environment.
- Employees have the opportunity to get used to and adhere to the new safety measures and procedures.
- The long term wellbeing of employees.
- To ensure compliance with GDPR legislative requirements if appropriate.
- The ability to issue necessary documents needed by clients/customers.

## **Additional Guidance and Supporting Information**

Please refer to the following hyperlinked documents for additional information.

- The HSE"s website: <a href="https://www.hse.gov.uk/news/coronavirus.htm">https://www.hse.gov.uk/news/coronavirus.htm</a>
  Contains details regarding Coronavirus latest information and advice
- ACAS advice and guidance: <a href="https://www.acas.org.uk/coronavirus">https://www.acas.org.uk/coronavirus</a>

## **Appendix 3 COVID-19 Health Awareness Guidance posters**

# Employers and businesses guidance

Common symptoms of coronavirus (COVID-19)

new and continuous cough

high temperature

If you have symptoms of coronavirus, you need to self-isolate for 7 days

If you live with someone who has symptoms, you need to self-isolate for 14 days from the day their symptoms started

Only use **NHS 111** if your symptoms get worse or are no better after home isolation

## Stop the spread of coronavirus

Wash your hands more often and for 20 seconds

- Get home or into work
- Blow your nose, sneeze or cough
- Eat or handle food

Cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze and throw the tissue away straight away

Businesses and workplaces should encourage their employees to work at home, wherever possible

Frequently clean and disinfect objects and surfaces that are touched regularly, using your standard cleaning products

Those who follow advice to stay at home will be eligible for **statutory sick pay (SSP) from the first day** of their absence from work

**Employers should use their discretion** concerning the need for medical evidence for certification for employees who are unwell. This will allow GPs to focus on their patients

If someone becomes unwell in the workplace with a new, continuous cough or a high temperature, **they should be sent home**  Employees from **defined vulnerable** groups should be strongly advised and supported to stay at home and work from there if possible

#### **About Us**

James Hallam Risk Management remain open during these unprecedented times, we provide advice to business small and large across the length and breadth of the UK. Whilst we are large enough to provide extensive range of risk management related services, we are small enough to provide a friendly and personal service that meets your company specific needs.

Please feel free to contact us to discuss the contents of this guidance document or discuss any other business risk management support or advice you may require.

James Hallam Risk Management, Queen of the South Arena, Lochfield Road, Dumfries. DG2 9BG
